Three simple steps to apply for a HealthPartners individual health plan

1. Choose a deductible that fits your needs and budget.

A deductible is the amount that each family member will pay upfront each year. Once you have paid that amount in medical expenses each year, HealthPartners pays 80 percent to 100 percent of expenses. Generally, higher deductible plans have lower monthly premium rates.

If you're not sure which deductible is right for you and your family, contact HealthPartners. We're here to help you understand your options.

2. Complete an application online, via mail or fax or talk to your broker.

Visit healthpartners.com/individual for details.

It's helpful to have the following information handy while you complete your application:

- Current and previous health insurance information
- Doctor's contact information
- Information about your health history and medications
- Payment information (payment for your first month's premium is due with your application)

3. Learn about the review process.

Applications for the HealthPartners Traditional individual plan are reviewed by our underwriters, and you will be notified of a decision in one to two weeks. A decision on your application may take longer if additional medical information is needed. For details on the application process, visit healthpartners.com/individual.

Important Information on HealthPartners Individual Health Plans

Provider Reimbursement

Our goal in reimbursing providers is to provide affordable care for our members while encouraging quality care through best care practices and rewarding providers for meeting the needs of our members. Several different types of reimbursement arrangements are used with providers. All are designed to achieve that goal. Some providers are paid on a “fee-for-service” basis, which means that the health plan pays the provider a certain set amount that corresponds to each type of service furnished by the provider.

Some providers are paid on a “discount” basis, which means that when a provider sends us a bill, we have negotiated a reduced rate on behalf of our members. We pay a predetermined percentage of the total bill for services.

Some providers are paid a “salary” with a possible additional payment made based on performance criteria such as quality of care and patient satisfaction measures.

Sometimes we have “case rate” arrangements with providers, which means that for a selected set of services the provider receives a set fee, or a “case rate,” for services needed up to an agreed upon maximum amount of services for a designated period of time. Alternatively, we may pay a “case rate” to a provider for all of the selected set of services needed during an agreed upon period of time.

Sometimes we have “withhold” arrangements with providers, which means that a portion of the provider's payment is set aside until the end of the year. The year-end reconciliation can happen in one or more of the following ways:

Withhold arrangements are sometimes used to pay primary care, specialty, referral or hospital providers who furnish services to members. The provider usually receives all or a portion of the withheld amount based on performance of agreed upon criteria, which may include patient satisfaction levels, quality of care and/or care management measures along with the financial performance of HealthPartners. Certain factors are measured to determine if the provider has satisfied the withhold criteria, such as patient satisfaction, survey results and compliance with industry standards for preventative services, clinical guidelines and care management.

Sometimes the amount of the withhold that the provider receives is based upon "cost targets" for care expenses. If total care costs are less than the cost target, all or a portion of the withheld amount is returned to the provider after the end of the year. Such cost targets include "stop-loss" protections which reduce the chance that treating patients with costly illnesses will have a direct negative impact on the provider's performance.

A provider may qualify to participate in a bonus program and receive additional payment if the provider meets certain performance criteria. Generally, these performance criteria are similar to the withhold criteria described above.

Some providers-usually hospitals-are paid on the “basis of the diagnosis” that they are treating; in other words, they are paid a set fee to treat certain kinds of conditions. Sometimes we pay hospitals and other institutional providers a set fee, or “per diem,” for each day or according to the number of days the patient spent in the facility.

Occasionally, our reimbursement arrangements with providers include some combination of the methods described above. For example, we may pay a case rate to a provider for a selected set of services needed during an agreed upon period of time, or for services needed up to an agreed upon maximum amount of services, and pay that same provider on a fee-for-service basis for services that are not provided within the time period or that exceed the maximum amount of services. In addition, although we may pay a provider, such as a medical clinic, using one type of reimbursement method, that clinic may pay its employed providers using another reimbursement method. Please check with your individual provider if you wish to know the basis on which he or she is paid.

Please Note: Enrolling in this plan doesn't guarantee services by a particular provider. If you wish to be certain of receiving care from a specific doctor, you should contact that doctor to ask whether or not the doctor is still a HealthPartners network provider, and whether or not the doctor is accepting additional patients.

Access to health care services doesn't guarantee access to a particular type of doctor. Please contact Member Services at 952-883-7000 or 1-866-443-9352 for specific information about access to different types of doctors.
